SUMMARY

Backend AI Engineering Intern at FlyRank and AI Intern at CodeAlpha, pursuing a BS in Computer Science at the Institute of Space Technology (IST). Skilled in developing backend applications, REST APIs, and AI-powered solutions using Python, FastAPI, Flask, SQL, and MongoDB. Passionate about solving real-world problems through scalable software, continuous learning, and modern backend technologies.

EXPERIENCE

Backend AI Engineering Intern FlyRank AI (Remote)

July 2026 – Present

- Developed backend applications using Python and FastAPI.
- Built RESTful APIs and database-driven applications.
- Utilized Git, GitHub, and Docker for version control and deployment workflows.
- Completed Backend AI Engineering and AI Fluency projects.

AI Engineering Intern CodeAlpha (Remote)

July 2026 – Aug 2026

- Developed an AI Language Translator using Python and Flask.
- Built a Smart FAQ Chatbot using TF-IDF and Cosine Similarity.
- Worked with APIs, Natural Language Processing, and backend development.

PROJECTS

FlyRank Task API (FastAPI, Python, REST API)

- Developed a RESTful Task Management API using FastAPI with CRUD operations and request validation.
- Implemented interactive Swagger API documentation and followed REST API best practices.

AI Language Translator (Python, Flask, Google Translate API)

- Built a multilingual language translation web application using Python and Flask.
- Integrated translation and text-to-speech functionality to support multiple languages.

Smart FAQ Chatbot (Python, Flask, NLP)

- Developed an AI-powered FAQ chatbot using TF-IDF and Cosine Similarity for intelligent responses.
- Designed a Flask-based web interface to provide quick and accurate answers to user queries.

Online Food Ordering System (Flask, HTML, CSS, MongoDB)

- Developed a web-based food ordering application using Flask, HTML, and CSS.
- Integrated MongoDB for customer, menu, and order management with CRUD functionality.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Institute of Space Technology (IST), KICSIT Campus

CGPA: **3.84 / 4.00**

Relevant Coursework

- Data Structures & Algorithms
- Database Systems
- Artificial Intelligence
- Software Engineering
- Computer Networks
- Computer Organization & Assembly Language

TECHNICAL SKILLS

Programming: Python, C++, SQL, 8086 Assembly

Backend: FastAPI, Flask, REST APIs

Web: HTML5, CSS3

Databases: MongoDB, MySQL, SQLite

AI: NLP, Prompt Engineering, Machine Learning Fundamentals

Tools: Git, GitHub, Docker, Postman, VS Code

LANGUAGES

- English
- Urdu
